Exercise Without Stress or Impact on the Joints

A Letter from our Founder, Clifford Clark

In 1959, I started an electronics sales and service company in Salina, Kansas. This operation grew through the 60's and 70's into distribution of electronics and communication equipment throughout the United States. After a back injury in the mid 1980's, I became more health conscious and started my mission of seeking out home therapy products to help myself, as well as others, feel better and be able to enjoy a better quality of life. To pursue the home therapy products industry, I started another business, Clark Enterprises. Years later we incorporated and established Clark Enterprises 2000, Inc., currently a family owned and operated company.

Our mission is to provide the highest quality in the manufacturing of home therapy products at a fair price along with unsurpassed customer service. Our machines are manufactured in an ISO-9001 Certified facility to insure that you receive a reliable, quality product. Our machines are not copies of any other machines on the market as they are genuine, Clark-built machines. Over the past several years, Clark Enterprises has built a reputation of providing the highest quality machines at reasonable prices. When you buy from Clark Enterprises, you are buying factory direct, as there are no middlemen. This can equal as much as a 40% savings to you.

Clark Enterprises commitment to superior customer service is second to none. Today, 50 years later, we still strive to provide the highest value for your dollar and understand the importance of "Service After the Sale".

Clark Enterprises 2000, Inc. is a very stable, well organized company with strong integrity. My vision for the future is to consistently research new technology in order to improve our products without losing sight of our strong foundation...providing excellent service, quality and value.

You should be using the
Exerciser 2000 Elite®

You can improve the way you feel
with minimum effort.

Receive some of the benefits of aerobic exercise without stress or impact on the joints

Relax the back muscles

Energize the body

Increase circulation throughout the body

Tone muscles

Increase mobility

Help relieve stiffness from head to toe

I had been spending my days just waiting when I saw your ad in Guideposts for the Exerciser 2000 Elite®. I had edema of my left foot and leg, two bad falls and a fear of falling which made me inactive. I'm 97 years old. Could it really help me? My daughter encouraged me to try it. I did. It's working! I feel alive again and have a new zest for life, thanks to you. —Grace R.
P.S. My daughter loves it too!

Take control of your life and feel better

Regular exercise is essential to our overall well-being. It helps increase energy levels, helps maintain a healthy heart, helps with weight control, and helps to decrease depression and fatigue. Exercise can also help with high blood pressure and diabetes. Millions of people suffer from various ailments that could be improved through regular exercise.

Regular exercise can also help the body to produce and release endorphins. Endorphins are a group of substances formed within the body that naturally relieve pain and work as a natural anti-depressant.

Passive exercise is becoming more and more popular. Several studies indicate this type of exercise can be extremely beneficial especially to those who are unable to do regular aerobic type exercise. Although passive exercise does not increase the heart rate or burn as many calories as true aerobic exercise, you can still enjoy many other remarkable benefits. Passive exercise can increase circulation, oxygenate the blood, and help move the lymph fluid, which can be beneficial to the immune system.

Features

- Built in an ISO-9001 CERTIFIED facility
- FDA Class 1 Registered
- ETL Approval
- 5-speed operation
- 2 pre-programmed selections
—one for relaxation
—one for energizing
- Heavy duty, high torque DC motor
- Wide cushioned ankle rest
- 16 minute digital timer with safety shut-off
- **2 year parts and labor warranty**
- Weighs only 15 pounds
- 15" wide x 13.5" deep x 9.5" high

*220/230 volt
model available for
International use*

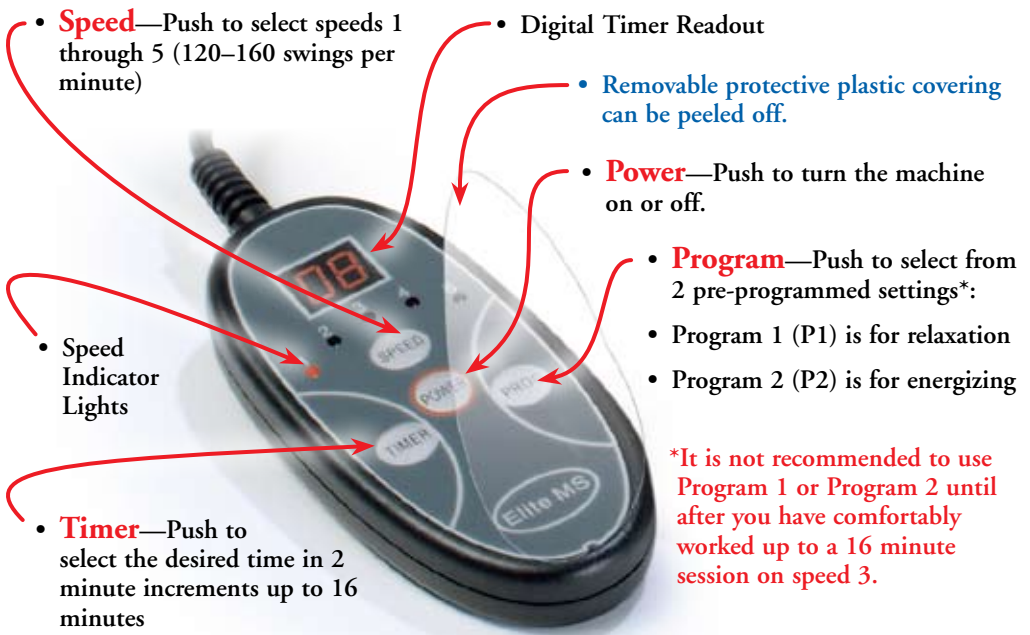

How Does the Exerciser 2000 Elite® Work?

- Just lie down, place your ankles on the ankle rest, turn the machine on and let it do the work.
- It creates a 2 inch, right to left movement that gently moves the body back and forth.
- This gentle swinging motion cycles up through the whole body, creating an exercise movement without stress or impact on the joints.

Using the Exerciser 2000 Elite® can help promote flexibility in the ankles, knees, hips and spine, relaxation of the muscles in the back, and increase circulation in the lower extremities. Increasing the circulation in the lower extremities can help relieve swelling in the ankles and legs.

The Exerciser 2000 Elite® is also beneficial for those who are able to do regular exercise. Using the machine before exercising helps loosen muscles making it easier for you to exercise. Using the Exerciser 2000 Elite® after exercising is also a great way to cool down.

The Exerciser 2000 Elite® is engineered and manufactured to the highest standards to ensure reliability and many years of service. It can be used for commercial use in pain clinics, health and exercise clubs, or it can be used at home.

- **Speed**—Push to select speeds 1 through 5 (120–160 swings per minute)

- Digital Timer Readout

- Removable protective plastic covering can be peeled off.

- **Power**—Push to turn the machine on or off.

- **Program**—Push to select from 2 pre-programmed settings*:

- Program 1 (P1) is for relaxation

- Program 2 (P2) is for energizing

*It is not recommended to use Program 1 or Program 2 until after you have comfortably worked up to a 16 minute session on speed 3.

- Speed Indicator Lights

- **Timer**—Push to select the desired time in 2 minute increments up to 16 minutes

Don't be fooled by cheap imitations

The Exerciser 2000 Elite® is the Rolls Royce™ when compared to other swing type passive exercise machines. Built to higher standards than our competition, it is manufactured in an ISO-9001 Certified facility, has ETL Approval and is a FDA Class 1 Registered Device.

- Hand crafted, cushioned ankle rest for added comfort

- 3-prong power cord

- Sleek, attractive cabinet design

- Removable protective plastic covering can be peeled off.

- Large handle for easier transporting

Customer Feedback

I have had pain in both of my knees since I had them replaced in 2000, 6 months apart. My husband purchased one of your Exerciser 2000 Elite® machines. I use it when I first get up in the morning and the last thing at night before I go to bed. I put two pillows under my knees for support and use the lowest speed for a few minutes. After a couple of days I worked up to a full 16 minute session. What a blessing! I have no pain, can walk better, keep my balance better and am so grateful, at 77, to lead a normal life again. I thank you so much.

—Gwen S.

I want to tell you and everyone how much I like the Exerciser 2000 Elite®. I had such lower back pain that I could not stand it. I saw your ad in the American Legion magazine two years ago. At that time, I thought it wouldn't help. But, I ordered one anyway. Up to the time I received the Exerciser 2000 Elite®, I still had doubts if it would work. I was wrong. I have used it for four months now. Now I have very little back pain, am more regular, and I sleep much better now thanks to the Exerciser 2000 Elite®. I would not ever part with it. It is the greatest thing I ever bought. —Clifford C.

I am 54, in good shape and like to ride horses. About 4 years ago I tripped over a garden hose and fell. Ever since then, I have had pain in my right leg from the sciatica nerve. I can't afford the physical therapy (which did help) and don't have time to fit it into my lifestyle. I tried pain relievers, but, the pain would be back. Then I discovered your machine and started by using it twice a day (now I do it every other day) to keep the pain away. Wonderful and amazing...worth every penny! Thank you. —Jennifer M.

Little did I know when I ordered the Exerciser 2000 Elite® that it would prove valuable to my wife of 62 years. I got it for the stiffness in my legs and it works perfectly to get me loosened up after playing tennis in the morning. When I come home I immediately get on the Exerciser 2000 Elite® for ten minutes and I feel great! My wife suffers from restless leg syndrome at night. Instead of walking the floor for a long period of time, she just gets on the Exerciser for ten minutes and the syndrome subsides. After wrestling with restless legs for a long time she is all smiles in the morning. Happy days are here again! Just thought you would like to know. —Dick P.

Standard Warranty

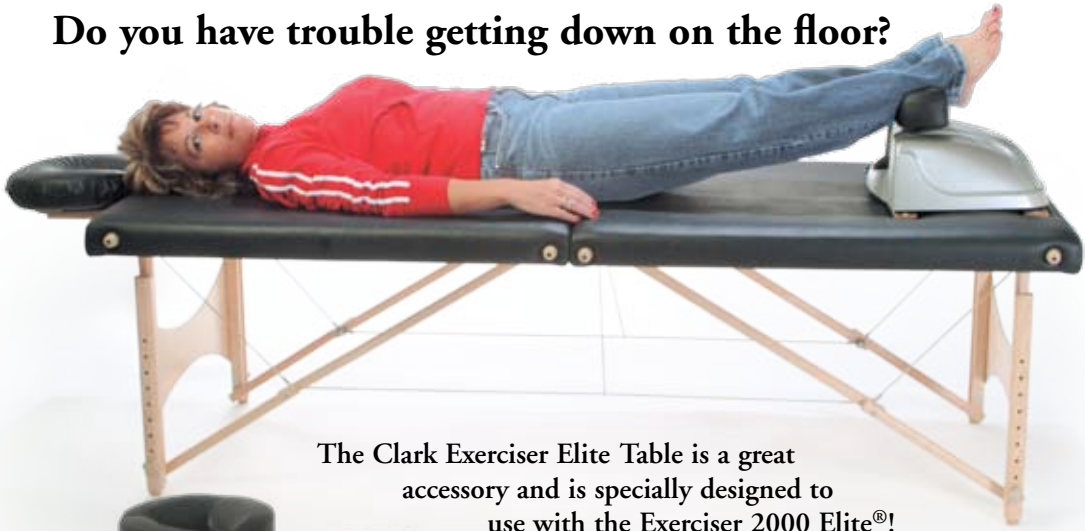

2 Year Parts and Labor

Optional Extended Warranty

When you purchase the Optional Extended Warranty for your Exerciser 2000 Elite®, Clark Enterprises will cover all parts and labor charges for a period of four years, from the date of purchase of your machine. At the end of this warranty period, you have the option to renew your parts and labor warranty. Please note: All warranties are non-transferable. The extended warranty starts from the original date of purchase of your machine and can only be added to your machine within 120 days of the date of purchase of your machine.

I am getting so much good out of my Exerciser 2000 Elite®, far more than I expected. I am 76 years old, heavy, stiff with arthritis and a leukemic for the past nine years. Using your machine twice a day has made me feel ten years younger. I am far less stiff and my thinking is clearer. I also have a great deal more energy. When you say that your company is in the business of "helping people feel better", it is no fib! —Kate B.

Do you have trouble getting down on the floor?

The Clark Exerciser Elite Table is a great accessory and is specially designed to use with the Exerciser 2000 Elite®!

\$269*

- Nothing to assemble—just remove from the box and unfold
- 1" high density foam for better body movement. Tables with thicker foam have a tendency to absorb the body movement.
- Table dimensions: 70" long by 30" wide
- Adjustable headrest—adds 11" in length
- Weight: Approx. 45 pounds
- Adjustable height from 21" up to 34"
- User weight limit 375 pounds
- 600 pound working weight

Individuals confined to a wheelchair

Simply place the machine on the floor in front of the chair. Place the soles of the feet on the ankle rest and select the desired speed and time. By using the machine in this manner you will still benefit from the leg movement; however, you will not experience upper body movement.

Kneading Fingers 2000™

PLATINUM SERIES

The **Revolutionary Massager that's All Thumbs**

The Kneading Fingers 2000™ Platinum Series employs two thumbs that deliver the closest thing to a real massage compared to any machine on the market. It is designed to virtually duplicate the firm kneading action of a trained masseur. The Kneading Fingers 2000™ can be used on most any high back upholstered chair or a high back office chair. It is ideal for office personnel, any office workstation and breakrooms.

**Stimulates sensory nerves
which helps relieve headaches**

Neck massage can promote sinus drainage

**Can improve muscle function and help alleviate
pain from arthritis and fibromyalgia**

**Can relieve spasms, tightness, and pain associated with
muscular disorders such as spasmodic torticollis**

“Owning a Kneading Fingers 2000™ is like having your own private masseur. You can enjoy the closest thing to a real massage in the comfort of your home or office. It doesn't get tired or complain and it is there for you when you need it!”

Headache

Stiff Neck

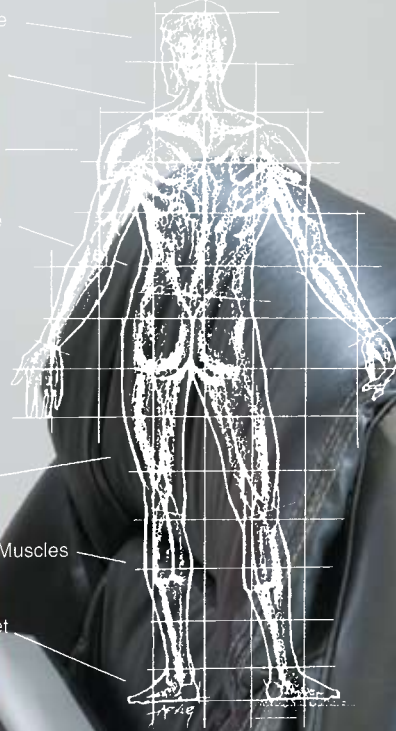

Sore
Shoulder

Backache

Stiff Leg
Muscles

Stiff Calf Muscles

Tired Feet

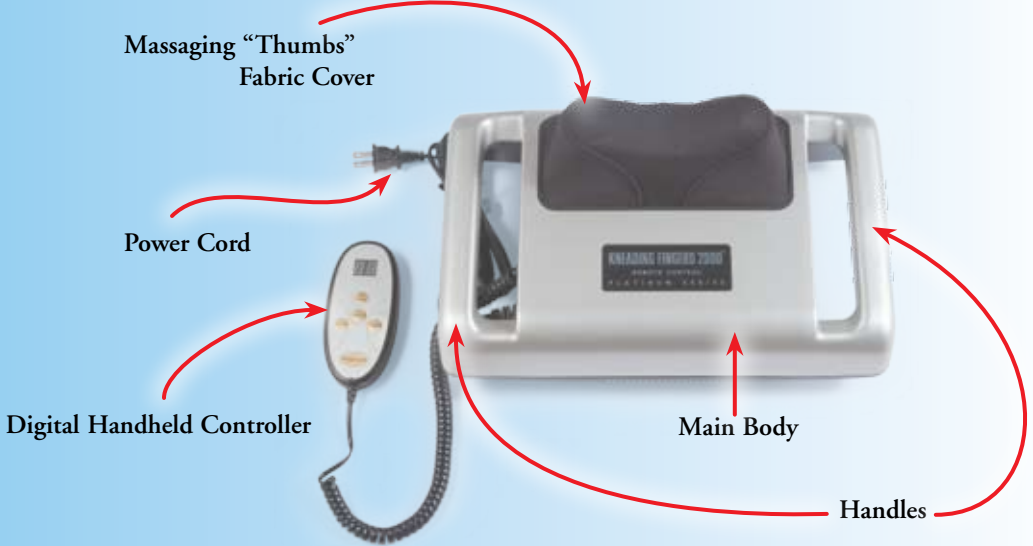

Brisk massage restores the body's vigor

**Relieves muscular aches and pains
and promotes muscle relaxation**

Helps improve range of motion

**Can relieve certain
types of pain caused
by degenerative
disc disease**

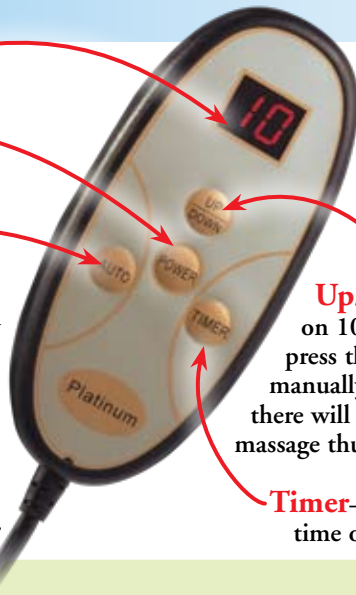

You will enjoy using the Kneading Fingers 2000™

Digital Readout

Power—Press to turn the machine on or off.

Auto—Press to activate the auto reverse feature. When activated an "A" appears in the LED display. The unit will change direction of rotation approximately every 15 seconds and will automatically shut off in approximately 10 minutes. NOTE: All time settings are approximate.

Up/Down—When timer is set on 10, 20 or 30 minutes you can press this button to change direction manually. After pressing the button there will be a slight pause and then the massage thumbs will change direction.

Timer—Press to select the desired time of 10, 20 or 30 minutes.

OVER A MILLION SOLD WORLDWIDE

What people are saying about Kneading Fingers 2000™

I have degenerative disc problems in my upper and lower back and had been on anti-inflammatory pain medications for over 18 months. After hearing about your Kneading Fingers 2000™, I decided to try it. I figured with your money back guarantee I had nothing to lose. After using the machine only 3 or 4 times, I was amazed with the results. Within 2 months from the time I purchased the machine, I was able to eliminate all of the costly pain medications and I feel much, much better. —*Angela R.*

We purchased our Kneading Fingers 2000™ three years ago and are still loving it. It helps relieve our neck pain, headaches and stress. Just a few minutes of use is all it takes for our neck and back to feel much better. Thank you for turning us on to the Kneading Fingers 2000™. —*Roger B.*

Being the CEO of a fast paced business can be stressful at times. My wife bought me a Kneading Fingers 2000™ for my birthday. She knows that I love massages as I get them twice a month. I took this machine to my office and I was amazed. What a stress reliever! Now we have another Kneading Fingers in the breakroom for our staff. They love it also. Thank you! —*Michael G.*

We are a very active family of 6. We are blessed with 4 kids ranging in age from 10-17. Two years ago our oldest son talked me into buying a Kneading Fingers 2000™ that he had tried out at our state fair. I thought it was a little pricey at the time, but it has turned out to be well worth the money spent. We all use it to relieve pain caused from sore muscles. We thoroughly enjoy this machine. The only problem is we may have to purchase another machine so everyone will quit fighting over it! I just thought you would like to know. —*Michelle S.*

I purchased a Kneading Fingers 2000™ nine years ago and have been using it routinely ever since. Arthritis in my neck causes muscle spasms and, occasionally, painful headaches. Other than taking anti-inflammatory medication, only therapy by an osteopath or a chiropractor would relieve the symptoms. That was the case until I started using this machine daily. It has paid for itself over and over. I have reduced my intake of medication for pain, which is very positive. I wouldn't hesitate a moment to recommend this massager to others. —*Donald M.*

Standard Warranty

2 Year Parts and Labor

Optional Extended Warranty

When you purchase the Optional Extended Warranty for your Kneading Fingers 2000™, Clark Enterprises will cover all parts and labor charges for a period of four years from the date of purchase of your machine. At the end of this warranty period, you have the option to renew your parts and labor warranty. Please note: All warranties are non-transferable. The extended warranty starts from the original date of purchase of your machine and can only be added to your machine within 120 days of the date of purchase of your machine.

My wife and I are in our late 70's and have been married for 54 years. We have always enjoyed giving each other a massage. Over the past few years, we both have developed arthritis in our hands making it difficult for us to give each other massages. A friend of ours loaned us their Kneading Fingers 2000™ and that was all it took. We ordered our own machine the very same day. We just love the Kneading Fingers 2000™! We can use the machine on each other or by ourselves. This is the best thing since sliced bread! —*Leroy J.*

2000 ELITE™

Benefits of reflexology and foot massage

Instills a feeling of well-being and contentment

Helps improve mental alertness

Reduces stress, tension and fatigue

Helps maintain general health

Helps increase energy levels

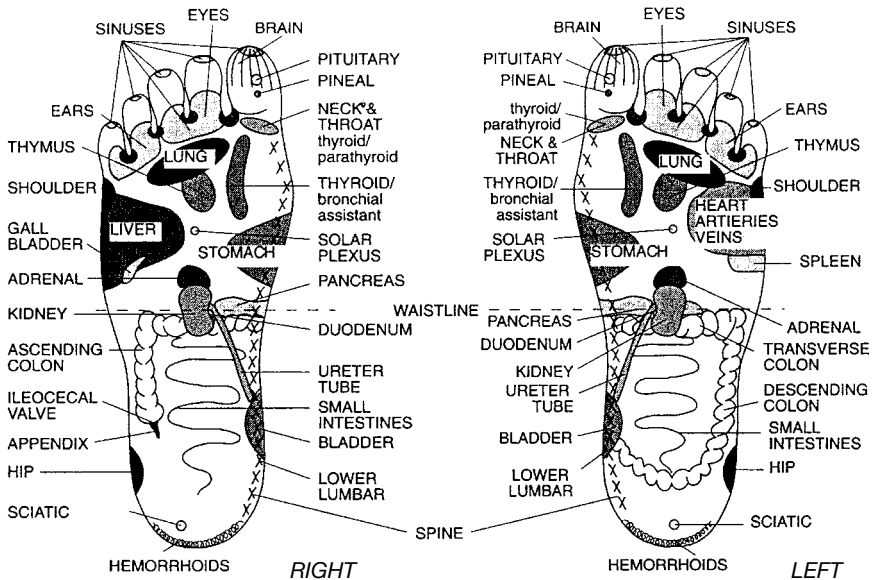

Make your feet feel wonderful

Designed to Simulate the Art of Reflexology

The art of reflexology has been used for thousands of years as a relaxation therapy which delivers a form of massage to small areas, or “reflex points” on the feet.

It is based on the belief that each part of the foot corresponds to a specific part of the body. With over 7,000 nerve endings in the feet, reflexology can play a vital role in our overall health and well-being. When we are stressed or after an illness, the body is in a state of “imbalance”. Sensitive areas in the feet indicate which part of the body is congested. By working on the reflex points, corresponding parts of the body are stimulated, blood circulation is improved, and the whole body is relaxed and brought into a state of equilibrium.

Reflexology and massage can also help the body to release endorphins, which naturally relieve pain and elevate one’s mood.

Our feet take a lot of “abuse” through the day. They get us where we need to go and support our entire body weight. We tend to overlook the importance of taking care of our feet; however, tired, achy feet can lower our activity and energy level. Now you can enjoy the benefits of reflexology, in the convenience of your home or office, with the Kneading Roller 2000 Elite™.

Your feet will love the Kneading Roller

2000 ELITE™

The Kneading Roller 2000 Elite™ has a unique rolling and kneading mechanism with small rollers that are positioned to stimulate the pressure and reflex points in the hands and feet. Unlike high frequency, vibration type foot massagers, the Kneading Roller 2000 Elite™ uses a low frequency, rolling movement that activates the pressure and trigger points more effectively. As a result, you will feel the invigorating sensation longer than with vibration type massagers.

The latest, state of the art technology makes the Kneading Roller 2000 Elite™ user friendly and reliable. With an 8 speed operation, width and directional settings, the Kneading Roller 2000 Elite™ can easily be adjusted to suit your preferences.

I work 8 hours a day as a data entry operator and I have problems with swelling in my feet. I purchased the Kneading Roller 2000 Elite™ and use it throughout the day while I am working. It has helped me a lot.—Jane M.

- Adjustable kneading action massages the sides of the foot and can accommodate most foot sizes.
- Unique knuckle type rollers designed to reach the reflex points on the feet.

Features

- 8-speed operation
- 2 pre-programmed settings
- Convenient push button controls
- 15 minute timer
- Built in an ISO-9001 CERTIFIED facility.
- Weighs only 10 pounds
